### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

1. The response filed on 11/19/04 has been considered.

### **Claims Rejection Under 35 USC - 103**

2. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 1-9 are rejected under 35 U.S.C. 103(a) as being unpatentable over **Conway** (5,418,581).

Conway discloses hinge system for eyewear which comprises a lens (30) having a lateral side; and a of detachable ear stem (20) mounted at said lateral side of said lens and being adapted to move from an inwardly folded position to an outwardly ear contacting position, said lens displaying, at one side, an opening and a stem connecting portion located adjacent said opening and defining a hinge element (12) forming an integral part of said lens, each said ear stem having an ear contacting distal end portion and a lens engaging proximal end portion, said proximal end portion defining a U-shaped recess (22) engageable with said hinge element (12), said recess displaying a constricted entry and being formed of resilient material to thereby enable a snap-in engagement and a snap-out disengagement, said hinge element and said opening allowing said proximal and of said ear stem to move from said folded position to and

Art Unit: 2873

from said outwardly ear contacting position. (see figures 6 and 7 and the related disclosure).

Conway discloses dual lenses while the claimed invention claim a single lens.

Eyeglasses or Sunglasses have long been designed with the general objective of blocking the sun or other sources of bright light, from one's eyes. Numerous designs of dual lens glasses and single lens glasses have been developed, differing only in aesthetic feature. Therefore it would have been obvious to one skilled in the art to make the lens, of the Conway, single lens glasses or dual lens glasses for the purpose of providing aesthetic feature.

### **Response To Applicant's argument**

3. Applicant's arguments filed 11/19/04 have been fully considered but they are not persuasive.

Applicant argued that "There is no teaching in Conway to form the hinge portion integrally with the lens." This argument is not persuasive because in column 3, lines 31-34 of Conway teaches that "if hinge member 12 is integral with lens 30 as shown in FIG. 6, it will be made of the same material as the lens." Therefore the claimed invention does not distinguish over Conway reference.

**THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within

Art Unit: 2873

TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
